SUMMARY

Software Developer with expertise in Data Structures & Algorithms and hands-on experience in full-stack web development. Skilled in C++, Java, and Python, with a solid foundation in building responsive web applications and integrating RESTful APIs. Adept at translating complex problems into efficient solutions using optimized algorithms. Aspiring to join a technology-driven team to build scalable and impactful software solutions.

TECHNICAL SKILLS

Programming Languages : Java, C++, JavaScript, Python

Frontend : HTML, CSS, Bootstrap, Tailwind CSS, React.js

Backend : Node.js, Express.js, EJS

Database : MongoDB, SQL

Tools & Deployment : GIT, GitHub, Vercel, Render

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, Computer Networks, RESTful APIs

EXPERIENCE

Front End Web Development, Edunet Foundation & AICTE

21st Aug, 2025 - 30th Sep, 2025

Internship

- Developed a responsive e-commerce product showcase platform using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-device compatibility.
- Designed reusable UI components and dashboard layouts, optimizing frontend code to improve UI performance and user experience.
- Independently built, version-controlled, and deployed the project using GitHub and VS Code, demonstrating innovative solutions for complex challenges and time-management skills.

PROJECT

Stayloft - Property Booking & Listing Platform (Airbnb-inspired) [Live](#)

- Tools & Technologies: Node.js, Express.js, MongoDB, EJS, HTML, CSS, JavaScript, Git/GitHub, Render.
- Developed a full-stack property rental platform enabling users to browse, list and manage properties with complete CRUD operations.
- Implemented secure authentication and authorization with protected routes for managing listings and user data.
- Integrated multiple image upload with validation, error handling and storage optimization for property listings.
- Implemented review and rating system with user authorization, enabling authenticated users to add and manage feedback for each listing.
- Structured backend using MVC architecture and RESTful APIs for scalable and maintainable application design.

EDUCATION

Bachelor of Computer Science Engineering

Aug 2023 - Jul 2027

Noida International University, Greater Noida

B.Tech. CSE (AIML) 8.76 CGPA

10+2

Apr 2022 - Mar 2023

CBSE Board 71.2 %

CERTIFICATIONS

- Java Programming : [Certified](#)
- TCS iON Career Edge-Young Professionals : [Certified](#)
- Edunet-Front End Web Development : [Certified](#)
- JavaScript Programming : [Certified](#)
- Edunet-Artificial Intelligence : [Certified](#)
- Python Programming : [Certified](#)

ACHIEVEMENTS

- Published a research paper titled "Lightweight Deep Learning Architectures for Real-Time Object Detection in Autonomous Systems" in JSIAR, May 2025. [Read](#)
